WATER ACTION PLAN FINALIZED – PRINT AND ONLINE, AND OREGON EXPLORER

# Project Deliverables

- Water Action Plan
- Oregon Explorer Mid-Coast Landing Page and Mid-Coast Water Planning Map Viewer
- Website

Initially,  
150+  
"Raw"  
draft  
actions  
developed

# Criteria to Prioritize Actions

- **High (Tier 1):** A critical action without which the objective(s) is not achievable. An action that absolutely must be completed to fully achieve the objective(s).
- **Medium (Tier 2):** A necessary but deferrable action which makes the plan/objective less workable but functional. An action that is necessary but potentially deferrable.
- **Low (Tier 3):** A productive action to implement if the resources exist, but the plan/objectives can be achieved without implementing. An action that adds value and would be completed under ideal circumstances, but is not essential to achieve the objective(s).

## The Project Team will then:

- Refine the organizational structure of the implementation plan (completed).
- Eliminate redundancies (completed).
- Convene the charter signatories to:
  - Review the incorporate suggested edits (in process).
  - Consider adding to the implementation plan any strategies that were initially not ranked “high” based on criteria (September).
  - Develop/refine performance metrics for each strategy (in process).

# Schedule

- **July 28, 8:30am meeting** with charter signatories – Consulting team will lead a walk-through of draft plan.
- **Round 1 edits (Milestone)**
  - **August 11, 5pm, proposed specific text edits to document due** using track changes in Word. No edits will be received to this version of the document after this date.
  - **August 13, 5pm, all track changes will be compiled and document will be shared with charter signatories**
  - **August 18, 8:30am, charter signatories convene** to discuss any proposed track changes that cannot be supported
- **Round 2 edits (Milestone)**
  - **September 1, 5pm, proposed specific text edits to document due** using track changes in Word. No edits will be received to this version of the document after this date.
  - **September 3, 5pm, all track changes will be compiled and document will be shared with charter signatories.**
  - **September 8, 8:30am, charter signatories convene** to discuss any proposed track changes that cannot be supported.

# Schedule

- **September 15, 2021:** Signatories develop criteria to determine if any of the medium or low priority strategies should be incorporated into the Water Action Plan. Signatories have a discussion about any SPECIFIC key gaps that exist, and should be included, in the plan.\*
- **September 22, 2021:** Signatories review and achieve informed consent on any additions to the Water Action Plan based on key gaps and criteria developed.
- **September 2021:** Planning Team works with Coordinating Committee on beta version of OE and OE landing page.
- **September 28, 2021:** Full partnership webinar to share Water Action Plan followed by survey to provide comments on plan. Beta version of Oregon Explorer and OE Landing Page presented to full partnership (**Milestone**)
- **October 2021:** Planning team participates in discussions led by Co-conveners and Coordinator regarding plan implementation.
- **November 2021:** Finalize OE elements of project. (**Project Completion**)
