

- They would also like help in cross-sector efforts to collaborate on water issues.
- For future engagement it was suggested that the Partnership focus on in-person opportunities that provide information/resources about what has been done successfully in the region or what they can be doing when it comes to water conservation and catchment.

The Partnership will be factoring in the input from the Oregon’s Kitchen Table public engagement efforts to further prioritize the actions for implementation.

Anatomy of the Mid-Coast Water Action Plan Implementation Table

Imperatives: Categories that address key water issues in the Mid-Coast region.

Objectives: High-level statements that outline what the Partnership seeks to achieve.

Actions: Specific activities that help achieve objectives.

Desired Outcomes: Specific changes that will occur as a result of implementing an action.

Potential Lead and Participants²⁷

Potential Lead: List of potential entities responsible for implementing actions.

Potential Participants: List of potential participants that will collaborate with the leads to implement actions.

Timeline:

- **Phase 1** = Action is expected to begin implementation within 1-3 years.
- **Phase 2** = Action is expected to begin implementation within 3-5 years.
- **Phase 3** = Action is expected to begin implementation within 5-10 years.

Initial Estimated Investment: Preliminary estimated costs to implement the plan over 10 years.²⁸

Performance Metrics: How the actions will be measured to track progress and determine if the action has been successfully implemented.

Metric Methodologies: Ways in which the performance metrics can be calculated.

²⁷ Potential lead and partners have been identified for most of the actions. The entities listed in the table have not yet confirmed their roles as of the development of this plan. If and when they confirm interest in leading that action, the table will be modified to signal that intent. Two-year work plans will be developed by the Partnership to highlight specific actions that will be implemented during that time frame.

²⁸ Initial Estimated Investments were based on partner input and reviewing other plans, and should be further validated during implementation.
